### **About SCT**

SCT has been supporting people experiencing homelessness and addictions to transform their lives for the past 60 years. Although the services we deliver and how we deliver them has changed since our inception in 1965, we continue to believe that lasting recovery – with the right support, at the right time – is possible. We offer a residential addictions treatment programme, supported housing, training and development opportunities, a peer-led recovery space (Choices'), and a highly effective Housing First service. We enable around 200 people per year to rebuild their lives, discover new skills, develop their confidence and self-esteem, and improve their physical health and mental wellbeing.

We work with people facing some of the most extreme and entrenched forms of disadvantage, offering person-centred and trauma-informed support. Central to our approach is the belief that those with lived experience of these issues are key agents of positive change – in their own lives and in the lives of others.

We're proud to be part of East London. Our nine charity shops and two social enterprises provide places for people to shop, join our community by volunteering, and provide vital income that helps fund our work.

In employment we seek to recruit people with a good combination of talent, skills and potential, promoting equality for all, and we welcome applications from a wide range of candidates. We select candidates for interview based on their skills, qualifications, experience and commitment to the values and purposes of the organisation. SCT is a growing organisation offering opportunities for applicants with good motivational skills and high levels of initiative
